ABOUT

Welcome to D³ Fest - Where Technology Meets Innovation!

Get ready to fuel your passion and amplify your skills at D³, the electrifying Techno-Management Fest of IIIT Bhubaneswar! Organized by the Tech Society of IIIT Bhubaneswar, in collaboration with the dynamic Automation and Robotics Society and RIPIT Company , D³ Fest promises an exciting blend of tech-centric competitions, mind-bending challenges, and management feats that will test your strategic prowess.

Spanning over three thrilling days, D³ brings together an electrifying lineup of events designed to challenge your skills, ignite your passion, and broaden your horizons. From cutting-edge tech competitions to high-octane management challenges, we've got something for everyone. Buckle up and gear up for an experience that will keep you on your toes, learning, competing, and winning big!

A background image featuring pixelated Minecraft-style characters in a dark, atmospheric landscape with mountains and a river. A central character, a male figure with orange hair and a green shirt, looks towards the right. Other characters are partially visible on the left and right sides.

So, fasten your seat belts, fuel up on caffeine, and join us at D³—where innovation meets action, and learning becomes a thrill. Let's make these 3 days unforgettable! Are you ready to dominate? Let's roll!

D³ is where the future happens—are you ready to be a part of it?

CRAFT-N-CODE

THE CROWN JEWEL OF DS FEST

Gear up for the ultimate national level hackathon at CRAFT-N-CODE!

This national-level competition invites brilliant minds from across the country to innovate, collaborate, and solve real-world challenges. Over 24 hours of non-stop coding, you'll build creative solutions, compete with top talents, and showcase your skills to industry leaders.

Ready to code your way to glory? Let's Hack!

CYBERSEC BATTLE

CRAFT YOUR DEFENSE, SURVIVE THE BREACH

Join the CyberSec Battle and demonstrate your cybersecurity expertise in protecting digital assets and national security. This competition challenges you to address critical issues like financial fraud, security breaches, national security threats, and emerging cyberattacks. Showcase your skills in preventing illicit activities, safeguarding sensitive information, protecting critical infrastructure, and combating advanced threats. Compete with fellow cybersecurity professionals and contribute to a safer digital world.

EVENTS

GENERATIVE AI WORKSHOP

BUILD YOUR AI WORLD, BLOCK BY BLOCK

Step into the future with our exclusive workshop on Generative AI!

Discover how artificial intelligence is transforming creativity, from art and music to design and innovation. Learn the core principles of generative models like GPT and DALL·E, and explore hands-on techniques to create AI-powered content.

Don't miss out on this exciting opportunity to dive into the world of Generative AI!

NETHER-OF-CODE

CRAFT YOUR CODE, MINE YOUR SUCCESS

Nether-of-Code is a contest where each participant competes individually. The contest is divided into two parts: the first part consists of 10 basic multiple-choice questions (MCQs), and the second part includes 3 data structures and algorithms (DSA) problems. Nether-of-Code is primarily aimed at freshers and beginners who are new to the world of coding.

It provides participants with valuable experience in both coding competitions and online assessments, helping them build essential skills for future challenges.

EVENTS

CODE-O-OLYMPICS

SWITCH GEARS, CODE LIKE A PRO

Cod-o-lympics is an ICPC (International Collegiate Programming Contest)-inspired programming competition where teams of coders come together to solve a series of algorithmic problems within a specified time limit. Each team works collaboratively to tackle a variety of computational challenges that test their coding skills, problem-solving abilities, and efficiency in implementing algorithms. The competition fosters an intense yet rewarding environment, where strategy and teamwork are just as crucial as technical prowess.

The primary objective of Cod-o-lympics is to solve as many problems as possible within the given time frame.

TECH TALK

CRAFTING THE FUTURE OF TECHNOLOGY

Join us for an inspiring Tech Talk where leading industry experts and innovators will dive into the latest trends and breakthroughs shaping the tech world. Whether you're a budding tech enthusiast or an experienced professional, this talk will spark new ideas, broaden your perspective, and give you a front-row seat to the future of technology.

Get ready for a session packed with knowledge, innovation, and inspiration!

EVENTS

PITCH AND WIN

BUILD YOUR VISION, CONQUER THE COMPETITION

Got a brilliant idea that could change the world? This is your moment to shine! We're thrilled to announce our upcoming "Pitch and Win" where creativity, originality, and bold thinking will take center stage.

This event is all about showcasing unique, innovative ideas across any field —be it technology, sustainability, social change, health, or beyond. Whether you're tackling global issues or bringing a fresh twist to a common challenge, we want to hear from you!

Why Join?

- Showcase your creativity to a panel of experts and see your ideas getting life .
- Network with mentors and like-minded innovators.
- Get a chance to bring your idea to life

We are looking for something unique , impactful and feasible

Don't miss this chance to turn your ideas into reality.
Think big, pitch bold and let your ideas shine... because
you never know what revolution can a simple idea bring.

Let the best ideas win!

EVENTS

ROBO RACE

RACE YOUR ROBOT, CONQUER THE CUBE

Get ready for the ultimate test of speed, precision, and engineering in the Robo Race! Design and build a robot capable of navigating a challenging obstacle course while racing against time. Showcase your technical expertise and problem-solving skills in a high-energy competition. Compete with fellow innovators, push the limits of your robot's capabilities, and take home the title of Robo Race Champion!

AUTOBOT

FROM GEAR TO GLORY, AUTOBOTS RISE!

Step into the AutoBot challenge and demonstrate your ability to design a fully autonomous robot! Build a bot that can independently follow a marked path while handling twists, turns, and obstacles with precision and speed. This event tests your skills in sensors, programming, and control systems, pushing the boundaries of autonomous robotics. Compete with fellow enthusiasts and showcase your innovation in a dynamic, fast-paced environment!

EVENTS

BUILD A BOT

CRAFTING BOTS: AUTOMATE, EXPLORE, CONQUER!

Join us for the exciting Build a Bot Competition at the D3 Techno-Management Fest! This innovative challenge invites tech enthusiasts and budding engineers to design and create their own robots. Participants will showcase their creativity and technical skills in a dynamic environment. Register now and bring your robotic visions to life!

INCEPTION X

EXPLORE, EXHIBIT, ELEVATE

Participate in our Robotic Exhibition and showcase your creations to a diverse audience. Whether you've built advanced AI-driven robots or unique automation solutions, this is your chance to demonstrate your skills and gain recognition. Engage with fellow participants, share ideas, and receive valuable feedback. Don't miss this opportunity to be a part of the future of robotics and inspire the next wave of innovation!

EVENTS

DIGICAST

UNLOCKING TOMORROW, ONE BYTE AT A TIME

TECH
HACK
INNOVATION

Join us for Dicast, an electrifying tech talk featuring a visionary! Explore groundbreaking advancements in robotics, cutting-edge electronics, and the dynamic realm of automation. This event promises a glimpse into the future where innovation and imagination collide. Don't miss your chance to engage with the ideas and trends that will redefine our world. Be part of the conversation that ignites the next technological revolution!

EVENT TIMELINE

NOV
8TH

WELCOMING CEREMONY

Inauguration Ceremony of the D3 fest, along with some special announcements

CRAFT-N-CODE

A 24-hour national coding competition where top talents innovate, collaborate, and tackle real-world challenges!

BUILD A BOT

Bring your robotic dreams to life and showcase your creativity in an exciting challenge

DIGICAST

From smart robotics to automated solutions that revolutionize workflows, let's promise to inspire and ignite your imagination.

CODE-O-OLYMPICS

Team up for a thrilling coding challenge, solving algorithmic puzzles against the clock where strategy & skill reign supreme

AUTOBOT

Race, innovate, and accelerate at Autobot: the ultimate challenge for speedy, autonomous robots!

NOV
9TH

PITCH AND WIN

Unveil your innovative ideas to seize the chance to claim enticing prizes, network with esteemed mentors & bring your vision to life

EVENT TIMELINE

INCEPTION X

Show off your cool robots, share ideas and connect with fellow dreamers at our exciting Robotic exhibition

NETHER-OF-CODE

Gear up! The ultimate coding adventure for freshers—tackle fun MCQs and exciting DSA challenges as you level up your skills

NOV
9TH

CYBERSEC BATTLE

Showcase your cybersecurity skills in protecting digital assets, combating cyber threats, and safeguarding national security

ROBO RACE

Build and race your robot to conquer obstacles and claim the championship title

GEN AI WORKSHOP

Step into the future with our workshop on Generative AI, exploring creative transformation through cutting-edge models like GPT and DALL·E!

NOV
10TH

TECH TALK

Gear up for an inspiring session with industry innovators sharing the latest trends to ignite your tech passion

CLOSING CEREMONY

Closing ceremony summing up the mini-fest with announcement of a Grand Surprise

CONTACT US

We appreciate you reading this brochure and looking at our ideas. We are excited to have you as our partner very soon.
